

Join WiRE

BE PART OF THE NETWORK

WiRE Networking is for members only

WiRE membership costs just £50 annually, but once you have joined you can attend any or all our networks. It is this membership fee which allows us to keep WiRE going, to offer networking opportunities and to support our volunteer network leaders. We ask guests to join after one or two meetings so we can continue to support women in business - just like you.

WiRE Membership also includes:

- a profile on our highly "search engine optimised" rural marketplace
- regional training, mentoring and a national conference
- WiRE newsletter featuring member news, successes, events and offers
- member knowledgebase to improve your skills and online profile
- Promotional and marketing opportunities
- helping raise the profile of all women in business nationally

WiRE networking isn't about swapping business cards, it is about support, inspiration, sharing skills and building relationships. WiRE networking is different; we are always welcoming, supportive and non-scary.

WiRE networking will help you:

- learn new skills and share your own
- boost your confidence
- find compatible collaborations
- market your business & find customers
- be part of a network open to all types and size of business
